JASON WOLFE

(310) 562 - 0755 • 562 Military Way, Palo Alto, CA • JasonWolfe@gmail.com

PROFESSIONAL PROFILE

Ambitious software engineer looking for full stack work in an aggressive environment. After 6 years writing software patents, I taught myself to code on unemployment and have risen to be the second best developer at my current employer. I am looking for more full stack challenges where I can continue rising. https://github.com/wulfey

TECHNICAL SKILLS

- ReactJS
- JSX / CSS
- Redux Form
- Redux
- JavaScript
- Node
- React Native
- Ruby
- C++

EDUCATION

UCLA School of Law   Juris Doctor, 2010

GPA 3.33/4.00

California State Bar: 275,663

United States Patent and Trademark Office: 71,327

UCLA   B.S. in Cybernetics, 2006

GPA 3.28/4.00

Computer Science specialization

Sat as a Computer Scientist for the Patent Bar

INTERESTS

ENGINEER EXPERIENCE

SOFTWARE ENGINEER   PRESENT
Keyo   11-2017

Full stack developer working on web and server sides of tenant and landlord facing web applications in the long term leasing space.

Eliminated manual first step of marketing funnel by automating email responses to inquiries on rental listings based on regex operations applied to the inquires.

Automated generation of complete lease application PDFs from mobile client submitted data, signatures, and documents for both rental applicants and their guarantors.

Created a multi-page Redux Form generator that reduced developer time to generate a multi-page CRUD form for a rental data model (e.g., Listing, Building, Unit, Lease) from three weeks to several days.

Created a Redux Form powered scheduling web app that eliminated manual entry of times for scheduling apartment viewings by customers.

INDEPENDENT DEVELOPER   11-2017
And Contract Patent Drafter   11-2016

Taught myself React, React-Native, ES6, C++, Java, JavaScript, and Ruby on Rails. Developer several solo projects including:

A tabletop gaming simulator in Ruby on Rails.

A cryptocurrency monitoring webApp using the MERN stack.

A react template to house access all my smaller study projects.

SOFTWARE PATENT ATTORNEY   11-2016
KPPB LLP and Adeli LLP   08-2010

Prepared hundreds of software flowcharts and state diagrams for startups, corporations, and universities. Prepared and prosecuted patents in the fields of:

Virtualized networks	Cryptography
Video encoding	Bioinformatics
